

Amendments to Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

What is claimed is:

1. (currently amended) A method for providing travel services to a person traveling to a geographic location, comprising:

a. providing a database including travel information, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations pertaining to one or more geographic locations, wherein any of said information can be selectively retrieved from said database based on the geographic location to which it pertains;

b. providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and geographic location, selecting information from said database based on said traveler's circumstances and geographic location, and providing said information to said traveler; and

c. accessing information from said database at a specific geographic location using a computer terminal, wherein information pertaining to said specific geographic location is automatically uploaded to said computer, and wherein said geographic location specific information includes travel information, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations at ~~least current suggested vaccination and terrorist information.~~

2. (previously presented) The method of Claim 1, wherein said database includes identification information for one or more service providers.

3. (previously presented) The method of Claim 1, wherein said services include transportation services, banking services, lodging services, medical services, and dental services.

4. (original) The method of Claim 3, wherein said transportation services comprise rental car services, railroad services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

5. (original) The method of Claim 3, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

6. (original) The method of Claim 3, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

7. (original) The method of Claim 2, wherein said identification information comprises name, phone number, and address information.

8. (original) The method of Claim 1, further comprising providing a phone number, wherein said traveler accesses said counseling services by calling said phone number.

9. (original) The method of Claim 1, further comprising providing an internet web site, wherein said web site is configured to receive information concerning said traveler's circumstances and geographic location, and wherein said web site

is operatively coupled to said database of travel information and configured to display said travel information.

10. (original) The method of Claim 1, further comprising providing said traveler with an emergency kit, said emergency kit comprising food and water.

11. (original) The method of Claim 1, further comprising providing said traveler with a mobile phone including a button configured to transmit the geographic location of said traveler upon depression of said button.

12. (previously presented) The method of Claim 11, wherein in response to a depression of said button of said mobile phone, a provider of rescue services is dispatched to said geographic location of said traveler, whereupon said traveler is transported by said provider of rescue services from said geographic location to a location of greater safety.

13. (previously presented) The method of Claim 12, further comprising providing said traveler with a password, wherein prior to said transporting of said traveler by said provider of rescue services, said traveler provides said password to said provider of rescue service.

14. (original) The method of Claim 1, further comprising providing said traveler with protective clothing adapted for use in said geographic location.

15. (original) The method of Claim 1, further comprising providing a computer network to which said database is operatively coupled.

16. (original) The method of Claim 1, wherein said database is operatively coupled to a computer terminal adapted to display said travel information from said database.

17. (original) The method of Claim 9, wherein said website is configured to provide said traveler with access to said database of travel information.

18. (original) The method of Claim 1, further comprising a voice mail system adapted to record and store messages provided by said traveler and further adapted to play back said messages, said voice mail system being accessible by calling a voice mail system telephone number.

19. (previously presented) The method of Claim 1, wherein in response to a request from said traveler, a provider of rescue services is dispatched to said geographic location of said traveler, whereupon said traveler is transported from said geographic location to a location of greater safety.

20. (currently amended) A method for providing travel services to a traveler ~~person~~ traveling to a geographic location, comprising:

a. providing said traveler with a mobile phone, said mobile phone including a button configured to transmit said the geographic location of said traveler upon depression of said button;

b. providing a database of travel information, said travel information pertaining to at least said geographic location, said database of travel information including weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations for the geographic location;

c. wherein said traveler retrieves from said database weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations for said geographic location; and

d. wherein in response to a depression of said button of said mobile phone, a rescue service provider is dispatched to said geographic location of said traveler, whereupon said traveler is transported by said rescue service provider from said geographic location to a location of greater safety.

21. canceled

22. (currently amended) The method of Claim 21, wherein said database includes identification information for one or more service providers, ~~and further includes weather information, traffic information, road construction information, terrorism information, legal information and suggested vaccinations.~~

23. (currently amended) The method of Claim ~~21~~ 20, further comprising providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and geographic location, selecting information from said database based on said traveler's circumstances and geographic location and providing said selected information to said traveler.

24. (original) The method of Claim 23, further comprising providing a phone number, wherein said traveler accesses said counseling services by calling said phone number.

25. (currently amended) The method of Claim ~~20~~ 21, further comprising providing an internet web site, wherein said

web site is configured to receive information concerning said traveler's circumstances and geographic location, and wherein said web site is operatively coupled to said database of travel information and configured to display said travel information.

26. (original) The method of Claim 20, further comprising providing said traveler with a password, wherein prior to said transporting of said traveler by said rescue service provider, said traveler provides said password to said rescue service provider.

27. (original) The method of Claim 20, further comprising providing said traveler with an emergency kit, said emergency kit comprising food and water.

28. (original) The method of Claim 20, further comprising providing said traveler with protective clothing adapted for use in said geographic location.

29. (previously presented) The method of Claim 22, wherein said service providers provide services including transportation services, banking services, lodging services, medical services, and dental services.

30. (original) The method of Claim 29, wherein said transportation services comprise rental car services, railroad services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

31. (original) The method of Claim 29, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

32. (original) The method of Claim 29, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

33. (currently amended) The method of Claim 20 21, wherein said database is operatively coupled to a computer network.

34. (original) The method of Claim 22, wherein said identification information comprises name, phone number, and address information.

35. (currently amended) The method of Claim 20 21, wherein said database is operatively coupled to a computer terminal adapted to display said travel information from said database.

36. (original) The method of Claim 25, wherein said website is configured to provide said traveler with access to said database of travel information.

37. (original) The method of Claim 20, further comprising a voice mail system adapted to record and store messages provided by said traveler and further adapted to play back said messages, said voice mail system being accessible by calling a voice mail system telephone number.

38. (currently amended) A system for providing travel services to a person traveling to a geographic location, comprising:

a. a database including travel information, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations pertaining to one or more

geographic locations, wherein any of said information can be selectively retrieved from said database based on the geographic location to which it pertains; and

b. a system for providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and said traveler's geographic location, selecting information from said database based on said traveler's circumstances and said traveler's geographic location and providing said information to said traveler; and

c. a system for allowing said traveler access to information from said database at a specific geographic location using a computer terminal, wherein information pertaining to said specific geographic location is automatically uploaded to said computer, and wherein said geographic location specific information includes travel information, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations.

39. (previously presented) The system of Claim 38, wherein said database includes identification information for one or more service providers.

40. (previously presented) The system of Claim 39, wherein said service providers provide services including transportation services, banking services, lodging services, medical services, and dental services.

41. (original) The system of Claim 40, wherein said transportation services comprise rental car services, railroad services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

42. (original) The system of Claim 40, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

43. (original) The system of Claim 40, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

44. (original) The system of Claim 38, wherein said database is operatively coupled to a computer network.

45. (original) The system of Claim 38, wherein said identification information comprises name, phone number, and address information.

46. (original) The system of Claim 38, further comprising a phone number, wherein said traveler accesses said counseling services by calling said phone number.

47. (original) The system of Claim 38, further comprising an internet web site, wherein said web site is configured to receive information concerning said traveler's circumstances and geographic location, and wherein said web site is operatively coupled to said database of travel information and configured to display said travel information.

48. (original) The system of Claim 38, further comprising an emergency kit, said emergency kit comprising food and water.

49. (original) The system of Claim 38, further comprising a mobile phone including a button configured to transmit the geographic location of said traveler upon depression of said button.

50. (original) The system of Claim 49, wherein in response to a depression of said button of said mobile phone, a rescue services provider is dispatched to said geographic location of said traveler, whereupon said traveler is transported by said rescue service provider from said geographic location to a location of greater safety.

51. (original) The system of Claim 38, further comprising a password, wherein prior to said transporting of said traveler by said rescue service provider, said traveler provides said password to said rescue service provider.

52. (original) The system of Claim 38, further comprising protective clothing adapted for use in said geographic location.

53. (original) The system of Claim 38, further comprising providing a computer network to which said database is operatively coupled.

54. (original) The system of Claim 38, wherein said database is operatively coupled to a computer terminal adapted to display said travel information from said database.

55. (original) The system of Claim 47, wherein said website is configured to provide said traveler with access to said database of travel information.

56. (original) The system of Claim 38, further comprising a voice mail system adapted to record and store messages provided by said traveler and further adapted to play back said messages, said voice mail system being accessible by calling a voice mail system telephone number.

57. (original) The system of Claim 38, wherein in response to a request from said traveler, a rescue services provider is dispatched to said geographic location of said traveler, whereupon said traveler is transported from said geographic location to a location of greater safety.

58. (currently amended) A method for providing travel services using a computer network, comprising:

- a. providing a computer network;
- b. providing a database of travel information operatively coupled to said computer network, said database including identification information for one or more service providers, and further comprising weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations; and
- c. providing said traveler with a means for selectively accessing information pertaining to said traveler's circumstances and geographic location from said database, wherein said information pertaining to said traveler's circumstances and geographic location includes weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations.

59. (previously presented) The method of Claim 58, wherein said service providers provide services including transportation services, lodging services, banking services, medical services, and dental services.

60. (original) The method of Claim 59, wherein said transportation services comprise rental car services, railroad

services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

61. (original) The method of Claim 59, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

62. (original) The method of Claim 59, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

63. (original) The method of Claim 58, wherein said identification information comprises name, phone number, and address information.

64. (original) The method of Claim 58, wherein said means for selectively accessing information comprises a computer terminal operatively coupled to said database.

65. (original) The method of Claim 58, wherein said means for selectively accessing information comprises an internet website operatively coupled to said database.

66. (original) The method of Claim 58, wherein said means for selectively accessing information comprises a system of providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and geographic location, selecting information from said database based on said traveler's circumstances and geographic location and providing said selected information to said traveler.

67. (original) The method of Claim 66, further comprising providing a telephone number, wherein said traveler

accesses said counseling services by calling said telephone number.

68-73. canceled

74. (currently amended) A system for providing travel services using a computer network, comprising:

a. a computer network;

b. a database of travel information operatively coupled to said computer network, said database including identification information for one or more service providers, and further comprising weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations; and

c. a means for selectively accessing information pertaining to a traveler's geographic location from said database, wherein said means is operatively coupled to said computer network, and wherein said information pertaining to said traveler's geographic location includes weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations.

75. (previously presented) The system of Claim 74, wherein said service providers provide services including transportation services, banking services, lodging services, medical services, and dental services.

76. (original) The system of Claim 75, wherein said transportation services comprise rental car services, railroad service providers, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

77. (original) The system of Claim 75, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

78. (original) The system of Claim 75, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

79. (original) The system of Claim 74, wherein said identification information comprises name, phone number, and address information.

80. (original) The system of Claim 74, wherein said means for selectively accessing information comprises a computer terminal operatively coupled to said database.

81. (original) The system of Claim 74, wherein said means for selectively accessing information comprises an internet website operatively coupled to said database.

82. (original) The system of Claim 74, wherein said means for selectively accessing information comprises a system of providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and geographic location, selecting information from said database based on said traveler's circumstances and geographic location and providing said selected information to said traveler.

83. (original) The system of Claim 82, further comprising a telephone number, wherein said traveler accesses said counseling services by calling said telephone number.

84. (currently amended) A system for providing travel services to a traveler traveling to a geographic location, comprising:

a. a mobile phone including a button configured to transmit said ~~the~~ geographic location of said traveler upon depression of said button;

b. a database of travel information, said travel information pertaining to at least said geographic location, said database of travel information including weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations for the geographic location;

c. wherein said traveler can retrieve from said database weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations for said geographic location; and

d. wherein in response to a depression of said button of said mobile phone, a rescue service provider is dispatched to said geographic location of said traveler, whereupon said traveler is transported by said rescue service provider from said geographic location to a location of greater safety.

85. canceled

86. (currently amended) The system of Claim 84 85, wherein said database includes identification information for one or more service providers, ~~and further includes weather information, traffic information, road construction information, terrorism information, legal information and suggested vaccinations.~~

87. (currently amended) The system of Claim 84 85, further comprising a system for providing counseling services,

wherein said providing counseling services comprises receiving information regarding said traveler's circumstances and geographic location, selecting information from said database based on said traveler's circumstances and geographic location and providing said selected information to said traveler.

88. (original) The system of Claim 87, further comprising a phone number, wherein said traveler accesses said counseling services by calling said phone number.

89. (currently amended) The system of Claim 84 85, further comprising an internet web site, wherein said web site is configured to receive information concerning said traveler's circumstances and geographic location, and wherein said web site is operatively coupled to said database of travel information and configured to display said travel information.

90. (original) The system of Claim 84, further comprising a password assigned to said traveler, wherein prior to said transporting of said traveler by said rescue service provider, said traveler provides said password to said rescue service provider.

91. (original) The system of Claim 84, further comprising an emergency kit, said emergency kit comprising food and water.

92. (original) The system of Claim 84, further comprising protective clothing adapted for use in said geographic location.

93. (previously presented) The system of Claim 86, wherein said service providers provide services including

transportation services, banking services, lodging services, medical services, and dental services.

94. (original) The system of Claim 93, wherein said transportation services comprise rental car services, railroad services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services.

95. (original) The system of Claim 93, wherein said lodging services comprise hotel services, motel services, and emergency shelter services.

96. (original) The system of Claim 93, wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

97. (currently amended) The system of Claim 84 85, further comprising a computer network, wherein said database is operatively coupled to said computer network.

98. (original) The system of Claim 86, wherein said identification information comprises name, phone number, and address information.

99. (currently amended) The system of Claim 84 85, wherein said database is operatively coupled to a computer terminal adapted to display said travel information from said database.

100. (original) The system of Claim 89, wherein said website is configured to provide said traveler with access to said database of travel information.

101. (original) The system of Claim 84, further comprising a voice mail system adapted to record and store messages provided by said traveler and further adapted to play back said messages, said voice mail system being accessible by calling a voice mail system telephone number.

102. (currently amended) A method of providing travel services to a person traveling to a geographic location, comprising:

- a. associating with one or more service providers, said services comprising transportation services, banking services, lodging services, medical services, and dental services;
- b. providing said traveler with an identification card including the name and address of said traveler and a photograph of said traveler;
- c. providing said traveler with a password;
- d. providing said traveler with an emergency kit, said emergency kit comprising food and water;
- e. providing said traveler with a mobile phone including a button configured to transmit the geographic location of said traveler upon depression of said button;
- f. providing a first telephone number;
- g. providing said traveler with protective clothing adapted for use in said geographic location;
- h. providing a database of travel information, said travel information pertaining to one or more geographic locations, said database comprising the names, addresses and phone numbers of said service providers, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations, wherein said travel information can be selectively retrieved from said database based on the geographic location to which it pertains, and wherein said

database is further operatively coupled to a computer terminal adapted to display said travel information from said database;

i. providing a voice mail system adapted to record and store messages provided by said traveler, and further adapted to play back said messages;

j. providing a second phone number for accessing said messages provided by said traveler;

k. providing an internet web site, wherein said web site is configured to receive information concerning said traveler's real-time circumstances and geographic location, wherein said web site is operatively coupled to said database of travel information and configured to display ~~said travel information~~ weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations pertaining to said traveler's geographic location;

l. providing counseling services to said traveler, wherein said providing counseling services comprises receiving information regarding said traveler's geographic location and circumstances, selecting information from said database based on said traveler's geographic location and circumstances, and providing said selected information to said traveler, wherein said traveler accesses said counseling services by at least one of calling said first telephone number or by transmitting a request for said counseling services via said web site;

m. wherein in response to a request from said traveler or a depression of said button of said mobile phone, a rescue service provider is dispatched to said geographic location of said traveler, whereupon said rescue services provider arrives at said location, said traveler provides said password to said rescue service provider, and said traveler is transported by said rescue service provider from said geographic location to a location of greater safety;

n. wherein said transportation services comprise rental car services, railroad services, rescue services, airline services, bus services, taxi services, automotive repair services, and towing services;

o. wherein said lodging services comprise hotel services, motel services, and emergency shelter services; and

p. wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

103. (currently amended) A system for providing travel services to a person traveling to a geographic location, comprising:

a. a mobile phone including a button configured to transmit to the receiving unit the geographic location of said traveler upon depression of said button;

b. a traveler identification system, comprising a traveler identification card including the name and address of said traveler and a photograph of said traveler;

c. a system of service providers, said services comprising transportation services, banking services, lodging services, medical services, and dental services;

d. a first telephone number;

e. a password assigned to said traveler;

f. a computer network;

g. a database of travel information, said travel information pertaining to one or more geographic locations, said database comprising the names, addresses and phone numbers of said service providers, weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations, wherein said travel information can be selectively retrieved from said database based on the geographic location to which it pertains, and wherein said database is further

operatively coupled to a computer terminal adapted to display said travel information from said database;

h. an internet web site operatively coupled to said database of travel information, wherein said web site is configured to receive information concerning said traveler's circumstances and geographic location, and is further configured display said travel information weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information, and suggested vaccinations pertaining to to said traveler's geographic location;

i. a voice mail system adapted to record and store messages provided by said traveler and further adapted to play back said messages, said voice mail system being accessible by calling a second telephone number;

j. a system for providing counseling services, wherein said providing counseling services comprises receiving information regarding said traveler's circumstances, selecting information from said database based on said circumstances, and providing said selected information to said traveler, wherein said traveler accesses said counseling services by calling said first phone number or by transmitting a request for said counseling services via said web site;

k. wherein in response to a request from said traveler or a depression of said button of said mobile phone, a rescue service provider is dispatched to said geographic location of said traveler, whereupon said rescue services provider arrives at said location, said traveler provides said password to said rescue service provider, and said traveler is transported by said rescue service provider from said geographic location to a location of greater safety;

l. wherein said transportation services comprise rental car services, railroad services, rescue services, airline

services, bus services, taxi services, automotive repair services, and towing services;

m. wherein said lodging services comprise hotel services, motel services, and emergency shelter services; and

n. wherein said medical services comprise physician services, hospital services, nursing services, and medical clinic services.

104-108. Canceled

109. (currently amended) A system for providing travel services to a person traveling to a geographic location, comprising:

a. a database of travel-related information pertaining to one or more geographic locations, wherein the travel-related information for each geographic location includes including weather information, traffic information, road construction information, terrorism information, suggested safety tip information, legal information and suggested vaccinations; and

b. a mobile communications device operatively coupled to the database and carried by the traveling person;

c. wherein ~~any of the~~ travel-related information can be selectively retrieved from the database by the mobile communications device based on the geographic location to which it pertains; and

wherein the mobile communications device includes an emergency button that, when depressed, transmits a current geographic location of the traveling person and dispatches a provider of rescue services to the current geographic location of the traveling person.
